PURPOSE OF MEETING

- A presentation will be made to provide an update on current construction activities in Fresno and Kings Counties, including design, right of way, as well as information on small business and employment opportunities.
- Receive feedback and discuss the project schedule and traffic management surrounding high-speed rail construction.

ABOUT THE PROJECT

Construction Package 2-3 (CP 2-3) is the second design-build construction contract executed on the high-speed rail program. CP 2-3 is the 65-mile segment between East American Avenue in Fresno County to one-mile north of the Tulare-Kern County line. CP 2-3 will include approximately 36 grade separations in the counties of Fresno, Tulare and Kings, including viaducts, underpasses and overpasses.

With more than 119-miles of active construction in the Central Valley underway, initial passenger service is planned for high-speed rail between the Silicon Valley and Central Valley. Learn more at www.buildhsr.com.
